

Datasheet: Fiber Handle Machinist's Hammer

Document Version: V1.0

1. Product Information

Product Name: Fiber Handle Machinist's Hammer

Item Number: 253012

Weight: 200g

2. Features & Benefits

- **High-Carbon Steel Head:** Fully machine-polished for durability and longevity.
- **Special Inlay Process:** Ensures secure attachment between head and handle, preventing detachment.
- **Dual-Color Rubber-Coated Handle:** Provides a comfortable, slip-resistant grip, and is impact-resistant.
- **Ergonomic Design:** Enhances user comfort and reduces fatigue during prolonged use.
- **Aesthetic Appeal:** Family-style design adds a visually appealing touch.

3. Technical Specifications

Parameter	Details
Item Number	253012
Weight	200g
Head Material	High-carbon steel
Handle Material	Fiber with dual-color rubber coating
Handle Design	Ergonomic, family-style, slip-resistant
Head Finish	Fully machine-polished

4. Applications

- **Mechanical Assembly:** Ideal for striking tasks in mechanical and automotive applications.
 - **Construction & Repair:** Suitable for construction sites and general repair work.
 - **DIY & Hobby Projects:** Perfect for enthusiasts and hobbyists requiring a reliable striking tool.
-

This datasheet provides a concise overview of the Fiber Handle Machinist's Hammer. For further details or inquiries, please contact the manufacturer's customer service.
